Seeking a full-time Web & System Developer or Quality Assurance (QA) position to leverage my extensive experience, skills, and commitment to continuous learning.

EDUCATION

Bicol University   **Legazpi City, Albay**
Bachelor of Science in Information Technology   **2020 - 2024**
- Consistent Dean's Lister
- Cum Laude (GPA: 1.74)

University of Santo Tomas - Legazpi   **Legazpi City, Albay**
Science, Technology, Engineering, Mathematics + (STEM +)   **2018 - 2020**
- with Merit
- Graduated with Honors

EXPERIENCE

Full Stack Developer   **Sept. 2024 - Dec. 2024**
CivilTech-Connect (Freelance)
- Developed a website, specifically for professional growth through selected educational materials, and dedicated internship and job openings.
- Developed a secure CRUD-enabled admin interface for seamless platform administration and data management.
- Applied thorough product specification analysis, and consistent communication with stakeholders.

Full Stack Developer   **Feb. 2024 - May 2024**
Development Bank of the Philippines (Internship)
- Developed a website for DBP members, providing transparent access to their financial data and the ability to generate their own SOA.
- Designed and implemented an admin platform that incorporates a CMS for flexible content management, CRUD functionalities for data manipulation, and automated generation of SOAs and Surplus Statements.
- Applied thorough product specification analysis and consistent, collaborative communication with stakeholders.

Front End Developer, Quality Assurance Analyst   **Sept. 2023 - Dec. 2023**
PAWsitive (Capstone Project & Start Up)
- Key contributor to an innovative system for Veterinary Clinics, integrating distinct user, admin, and staff interfaces with an automated SMS notification for appointment reminder and confirmation.
- Led the design and development of the entire front end.
- Spearheaded comprehensive product and requirement analysis, ensuring alignment with project goals.
- Implemented robust testing methodologies to guarantee system stability and enhance user satisfaction.
- Designed, executed, and documented test cases, creating precise and detailed bug reports.
